

World Food Day

Sunday October 16th

Did You Know?

- Up to 828 million people in the world experience hunger
- Around 80% of displaced people live in countries affected by long-term hunger
- Women, the elderly, people living with disabilities, and racial, ethnic and religious minorities experience a disproportionate amount of hunger
- Climate change is increasing strain on people working to produce their own food

Your support is providing families the food they need today, plus skills and supplies to grow their own food tomorrow—like in Burundi, where 2,790 people recently received emergency food support and 1,200 households received farm starter kits, including seeds and small livestock.

Hunger is a growing threat, but together we can make a difference. Please join us in prayer today for those facing food insecurity and visit clwr.org/food to find out more. Thank you for your compassion and support!
